WILLIAMSTOWN TOWNSHIP

PLANNING COMMISSION MEETING MINUTES

July 22, 2026

CALL TO ORDER

The Williamstown Township Planning Commission convened at 6:30 pm at the Township Hall, 4990 Zimmer Road, Williamston, MI. Chair Eidt called the meeting to order.

Chair Eidt led the group in the Pledge of Allegiance.

PRESENT: Chair Eidt, Commissioners Cutshaw, Mark, Flore, Porter, Weston and Trustee Creagh.

ABSENT: Commissioners Tocarchick and Thorp

Quorum established.

ALSO PRESENT: Planning Consultant Chris Doozan of McKenna and Sheryl Monette, Planning Assistant.

APPROVAL OF AGENDA

Motion by Mark, second by Creagh to approve the agenda.

Motion approved 7-0.

APPROVAL OF MINUTES

Motion by Porter, second by Cutshaw to approve the Meeting Minutes for 6/24/2026.

Motion approved 7-0.

PUBLIC COMMENT

Opened at 6:34 pm

Chair Eidt stated that the Planning Commission's role is to make a recommendation to the Township Board for an Ordinance on Data Centers. He stated that legally data centers cannot be excluded from the Township, but the Township can put regulations and conditions on their development.

Chair Eidt acknowledged the email received from **J Sweeney**, **Township Resident**, which was distributed to Planning Commission members will become a part of the public comment record.

Anne Fitzgerald, Township Resident. Ms. Fitzgerald stated that she would like to see a Data Center Ordinance that is very strong. She voiced concerns about the use of water for cooling and the effects on the ground water and wells, electric consumption and resulting higher rates for residents, along with the noise that is produced by the data centers. Ms. Fitzgerald stated that post construction data centers only create a few long-term jobs. She stated that she believes that data center developers and companies

take advantage of communities and that communities don't want them. Ms. Fitzgerald stated that she doesn't trust big corporations.

Mason Kowalski, Leroy Township Resident. Mr. Kowalski voiced concerns regarding data centers. He stated that the low frequency noise and vibrations generated by data centers can be heard or felt 2 ½ miles away, 24 hours a day, 7 days a week. Mr. Kowalski also voiced concerns regarding the strain that data centers place on the grid, and stated that the increase in demand for electricity drives up rates as seen in Oregon. Mr. Kowalski verbalized concern about the back up diesel powered generators and their effects on the air quality. He said that only T4 generators should be allowed. He asked that air quality testing be part of the ordinance.

Kaitie VanCamp, City of Williamston Resident. Ms. VanCamp voiced concerns regarding the resources that the data centers consume. She stated she has concerns about the possibility of antibiotic resistance bacteria/microbes being released into the wastewater system and making it into the water system by data centers. She stated that there is not enough research on the health implications of data centers or the amount of natural resources they consume. She encouraged the passing of a very strong ordinance that makes it unattractive for the development of data centers in the Township.

John Pratt, Township Resident. Mr. Pratt stated he agrees with what was stated by other speakers and is in opposition of data centers in the Township.

Sam Zuke, Township Resident. Mr. Zuke stated that he feels whether data centers are developed in the Township should be in the residents' hands not the government's.

Closed at 6:45 pm

PUBLIC HEARINGS

Proposed amendments to Article 8.02(RR) regarding Keeping of Farm Animals on Non-Farm Parcels or Lots.

Motion by Weston, second by Mark, to reopen the public hearing for the proposed amendments to Article 8.02(RR) that was left open on June 24th, 2026.

Motion approved 7- 0.

Opened at 6:48 pm

Chris Doozan, Planning Consultant, reviewed his June 26th, 2026, letter to the Planning Commission regarding the zoning revisions regarding Article 8.02(RR).

Public Comments: None.

Motion by Weston, second by Mark, to close the public hearing.

Motion approved 7- 0.

Public Hearing Closed at 6:49 pm

Proposed amendments to the Zoning Ordinance to permit data centers in certain locations within the Township under specific regulations.

.

Motion by Cutshaw, second Weston, to open the public hearing.

Motion approved 7- 0.

Public Hearing Opened at 6:51 pm

Chris Doozan, Planning Consultant, read from the Michigan Zoning Enabling Act where it prohibits local units of government from exclusionary zoning. The new regulations would result in the creation of a new subsection UU within Section 8.02 of the Zoning Ordinance. In addition, revisions to Section 24.04 are proposed. Mr. Doozan stated that with this being a proposed permitted use only the Green Zone Planned Development District it would come with greater oversight and review by both the Planning Commission and the Township Board. Mr. Doozan stated that he recommends four additional edits to address the following concerns:

- 4 (c) (iv) Sound and vibration revisions are necessary to address the low frequency sounds and tonal prominence and to require full spectrum modeling.
- 4 (c) (ii) Landscaping revisions are required, involving at least doubling the requirement along the road.
- Adding a community benefits agreement, which could generate funding for parks, emergency response, or other community needs.
- 4 (c) (i) Revisions are necessary to increase the setback from the lot line of any residentially zoned or used property from 300 ft to 750 or 1,000 ft.

Mr. Doozan recommended that the Planning Commission postpone action and that he would come back next month with revisions.

Discussion ensued. Commissioners brought up concerns about whether the decommissioning cost and regulations are strict enough, whether the ordinance covers odors, if the ordinance should allow for closed loop cooling systems only, the need to regulate generators so they are used for emergency power only, and the need to address air quality and contaminates. Many Commissioners felt that the Planning Commission should not rush passing an ordinance and use the full time of the moratorium, noting that much of this is an evolving target. The ordinance should minimize impact of a data center if one is developed in the Township and provide maximum protection for the Township citizens and the land.

Public Comment in support of the amended language: None

Public Comment in opposition of the amended language:

Anne Fitzgerald, Township Resident. Ms. Fitgerald asked for clarification regarding the Act Mr. Doozan read regarding the exclusionary zoning and whether this means local control has been taken from the local government.

Mr. Doozan provided the information- The Michigan Zoning Enabling Act 110 of 2006, MCL 125.3207

Will Lawrence, Lansing Resident, Candidate for US Congress. Mr. Lawrence stated that he felt the decommissioning plan should be fully funded along with a strong community benefits agreement. He stated that allowing for only a closed loop system may be a better option but has concerns of wastewater contamination and states this needs monitoring. He stated that there is often bait and switch with developers and utility companies. Mr. Lawrence stated that the fine of $100 per day is not enough and the fine needs to be increased to tens of millions of dollars to even make an impact to the companies.

Marshall Cloburne, Lansing Resident. Mr. Clobune stated that there should be strict guidelines for data centers, legal binding protection. He stated glycol is used in closed loop systems and there are no regulations on disposal of glycol, so it often goes to onsite holding ponds. Closed loop systems need large amounts of water to bring online and for flushing. He asked that the regulations include animal and wildlife impact studies. He stated there are behind the meter concerns especially with the generators and fuel cells especially with methane production.

John Pratt, Township Resident. Mr. Pratt stated this is something that nobody in the Township wants and stated not to count the people out.

Mason Kowalski, Leroy Township Resident. Mr. Kowalski spoke out in opposition to data centers and stated the exclusionary clause was unreasonable. Asked members of the Planning Commission if they were for the development of data centers in the Township.

Sam Zuke, Township Resident. Mr. Zuke stated there needs to be guardrails for data center developments. He suggested that the ordinance should address odors coming from them. He stated that he works in IT technology and rules and regulations regarding how data is used, who has access to it and the purpose of the data needs to be in place. He also stated that the government should not overturn the will of the people.

Kaitie VanCamp, City of Williamston Resident. Ms. VanCamp asked if anyone has approached the Township about building a data center in the Township.

Chair Eidt stated he wasn't aware of anyone approaching the Township and asked the question of the Planning Assistant, Sheryl Monette. Mrs. Monette stated she wasn't aware of anyone approaching the Township for the development of a data center.

Jeremy Cunningham, Township Resident. Mr. Cunningham asked why the Green Zone Planned Development District was being considered for data centers. Given that this district runs along

Grand River Ave. which would be desirable to a data center. Questioned whether a zoning district or location that would not be so attractive could be an alternative.

Mr. Doozan stated that placement of a data center this district would impact the Township the least and give greater oversight for development without placing unrealistic conditions that may not hold up in Court.

Planning Commission thanked the public for their comments and noted that that this was the fifth version of the ordinance and is still a work in progress. Residents were told to contact the Township Hall for a copy of the ordinance.

Motion by Porter, second Creagh, to close the public hearing and table the proposed amendments to the Zoning Ordinance to permit data centers.

Motion approved 7- 0.

Public Hearing Closed at 7:33 pm

UNFINISHED BUSINESS

Proposed amendments to Article 8.02(RR) regarding Keeping of Farm Animals on Non-Farm Parcels or Lots.

Motion by Porter, second by Cutshaw, to recommend approval of the amendments to Article 8.02(RR) to the Township Board.

Motion approved 7- 0.

ZONING ORDINANCE REVIEW PHASE 5

Mark-up of Article 8.00, Site Development Standards Applicable to Specific Uses

The Planning Commission reviewed the revisions to Article 8.00, Site Development Standards Applicable to Specific Uses. Discussion ensued and edits were made. Planning Assistant, Sheryl Monette read comments left by Commissioner Tocarchick. Planning Consultant, Chris Doozan also brought forth an area of concern that came up a few hours before the meeting that involves Ordinance 8.00. A question of whether it was intended for the Ordinance to allow the rental of Accessory Dwelling Units (ADU) to the general public. Discussion ensued. Some Planning Commissioners said that thought ADU's were intended to allow residents to age in place or to allow family members to reside in ADU. Chris Doozan will review and make the additional edits and will bring this Article back to the Planning Commission next month.

Motion by Mark, second by Creagh to table Article 8.00 and look at additional revisions.

Motion approved 7- 0.

* Commissioner Weston left the meeting at 8:06 pm and returned at 8:08 pm

NEW BUSINESS

ZONING ORDINANCE REVIEW PHASE 6

Mark-up of Article 9.00, Performance Standards

Chris Doozan, Planning Consultant, reviewed the draft of Article 9.00, Performance Standards. Discussion ensued and edits were made. Planning Assistant, Sheryl Monette read comments left by Commissioner Tocarchick. Chris Doozan will make the additional edits and will bring this Article back to the Planning Commission next month.

Mark-up of Article 10.00, Establishment of Zoning Districts

Chris Doozan, Planning Consultant, reviewed the draft of Article 10.00, Establishments of Zoning Districts. Discussion ensued and edits were made. Planning Assistant, Sheryl Monette read the comments left by Commissioner Tocarchick. Chris Doozan will make the additional edits and will bring this Article back to the Planning Commission next month.

CHANGE OF DATE FOR THE OCTOBER PLANNING COMMISION MEETING

Due to the accuracy test for the voting equipment taking place around October 15th, the meeting room will not be available after the test occurs. Thus, the Planning Commission meeting date must change. Discussion ensued. The Planning Commission also discussed the option of keeping the December meeting on the calendar but cancelling the meeting if there isn't a time sensitive matter on the agenda.

Motion by Mark, second by Porter to move October meeting to October 13th and cancel the December meeting if there isn't a time sensitive matter on the agenda.

Motion approved 7 - 0.

PLANNING AND BOARD REPORTS AND REVIEW

Township Board. Trustee Creagh stated at the last Township Board meeting there was standing room only because ITC representatives were at the meeting to answer questions. Residents were encouraged to go to the open houses and provide specific concerns and data regarding the transmission lines. He stated that the Board approved a new Hall Rental policy revision and turned down the Bappert rezoning. He noted that at some point the Township Board would like the Planning Commission to look at how we can encourage young farmers. Things are moving ahead with the deer management program.

REVIEW

Chair Eidt reviewed the Planning Commission's actions from the meeting:

- Approved the meeting minutes 6/24/2026
- Held a public hearing on the proposed revisions to Article 8.02 (RR) keeping of Farm Animals and made a recommendation of approval to the Township Board
- Held a public hearing on the data center ordinance and will be working on revisions next month
- Reviewed Article 8.00 and will look at revisions for ADU'S next month.
- Reviewed Article 9.00 and 10.00 made changes. Will review it again next month.
- Changed October Planning Commission meeting to October 13 and voted on cancelling December's meeting if there isn't any time sensitive on the agenda.

ADJOURNMENT

Motion by Creagh, second by Mark to adjourn the meeting.
